

Head & Shoulder base plate HP02-00

The IMPACT Head & Shoulder Base Plate is designed to provide firm support and comfortable positioning for the head, neck and shoulder region. Compatible with clamp thermoplastic masks, it is constructed from lightweight, radiolucent materials that minimize beam interference and help achieve optimal accuracy throughout the treatment process.

Salient features:

- ✓ Maximum radiolucent competence
- ✓ Proficient daily reproducibility
- ✓ Indexable on a variety of couch top
- ✓ No hostile effects on skin
- ✓ Compatible to use it with headrest, Elevation blocks, Shoulder wedges
