

Sigma Lite Board SL32-00

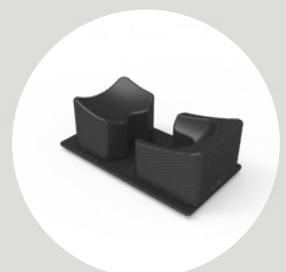

The Sigma Lite Board is also a comprehensive lightweight, carbon fiber-based patient positioning board designed to support treatments from head to knee. It is compatible with all treatment couches featuring indexing systems and includes integrated accessories such as a headrest, wrist handles and a kneefix cushion. The board ensures stable immobilization, enhances patient comfort and supports precise treatment delivery in 0-degree beam configurations.

Salient features:

- ✓ Compact for quick setup
- ✓ One solution for all positioning needs
- ✓ Easy positioning on diverse couch top
- ✓ Agile handling
- ✓ No hostile effects on skin
